Education

Master of Science: Computer Science, *University of Catania*
09/2020 – 07/2022
110/110 and honors (First class with honors)

Erasmus: Computer Science, *Kaunas Technology University*
08/2021 – 02/2022

Bachelor of Science: Computer Science, *University of Catania*
09/2017 – 07/2020

Skills

- Javascript
- Back-end
- Front-end
- Database
- Git
- Algorithm

Languages

- Italian ●●●●●
- English ●●●●○
- French ●●●○○

Full stack Engineer that has always been passionated by coding. I approached competitive programming as individual contestant first becoming regional champion and 50th Italian ranked and as team leader after, winning the regional team competition and then as teacher collaborating with local Univerity and High Schools. During the university career I was part of a research group focus on algorithms having the opportunity to publish for international journals and conferences. I always worked to improve my web development knowledge doing personal and work projects. Really comfortable using test driven development process in order to write maintainable code.

Professional Experience

Software Enigneer, *Skillbill s.r.l.*
06/2022 – present

- Worked using test driven development process, focusing the testing area of the application developing unit tests, integration tests, end-to-end tests, functional tests and acceptance tests.
- Collaborated with clients to define solution requirements.
- Participated in architecture, design and implementation of the applications using Python, HTML, CSS, Javascript, Vue.js, PostgreSQL, Docker, Redis, Prometheus, Grafana.

Data Manipulation, *Compunet Cards*
07/2019 – 09/2019
Data manipulation using SQL Databases.

- Collaborated with team members to achieve target results.
- Managed big quantity of data using SQL.

Publications

A Efficient Online String Matching Based on Characters Distance Text Sampling, *Algorithmica 2020*

Fast-Insertion-Sort: a New Family of Efficient Variants of the Insertion-Sort Algorithm, *Student Research Forum at SOFSEM 2020*

Reducing Time and Space in Indexed String Matching by Characters Distance Text Sampling,
Prague Stringology Conference 2020

Towards an Efficient Text Sampling Approach for Exact and Approximate Matching,
Italian Conference on Theoretical Computer Science 2021

Enhancing Characters Distance Text Sampling by Condensed Alphabets, *Prague Stringology Conference 2021*

Character Distance Text Sampling in the case of Small Alphabets,
WCTA2020
